Personal Profile

Machine Learning Engineer with expertise in machine learning, deep learning, and computer vision, experienced in building end-to-end AI solutions from data preprocessing to model deployment. Proficient in Python, Scikit-learn, TensorFlow/PyTorch, with hands-on experience in feature engineering, model optimization, and developing scalable ML pipelines for real-world problems.

EDUCATION

Bachelor of Computer Science, *University of Central Punjab*

2023 – Present

- Major: Machine Learning
- Minor: Data Science
- CGPA: 2.61

Lahore

Intermediate in Pre-Medical, *Punjab College*

2021 – 2023

Pakpattan

SKILLS AND INTERESTS

Technical Skills

- Machine Learning
- Deep Learning
- Computer Vision
- Python
- C++
- Data Scraping

Interpersonal Skills

- Strong Communication Skills
- Problem solving
- Willingness to learn more and more with a 'can do' attitude

Language

English

Fluent

Urdu

Native

PROJECTS

Hirely

Developed Hirely, a job search platform that aggregates scraped job listings, enables semantic job search with FAISS, and uses resume skill extraction for personalized job recommendations.

Hand Gesture Engine

Developed a hand recognition engine that processes live webcam input, detects hand landmarks, and performs real-time gesture classification using deep learning/computer vision techniques.

Movie Recommender

Built a movie recommendation system that suggests personalized movies based on user preferences using machine learning and similarity-based recommendation techniques.

Churn Predictor

Developed a churn prediction system by analyzing customer behavior data and training classification models to predict potential churn with high accuracy.

Tremor Detection App

Developed a real-time tremor detection system using IMU sensor data and machine learning models to classify hand movements and detect tremor patterns.

Additional Skills

AWS Cloud fundamentals knowledge with experience in deploying ML applications, strong understanding of data structures & algorithms, experience with Git/GitHub, web scraping, API integration.
